

Painting Instructions for Steel Garage Doors as offered by Stewart Overhead Door

We do not recommend painting the Northland XL Inlay and Northland Overlay Doors. Paint may not adhere to overlay and inlay boards that have been mounted to the front of the doors.

1. *Wash and scrub surface with a sponge or a brush until the surface is clean using a solution consisting of the following proportions:*
 - 3 quarts of water
 - 1/3 cup laundry detergent (Tide)
 - 2/3 cup tri-sodium phosphate (TSP)

***If mildew is present, add 1 quart of sodium hypochlorite (5% solution, Bleach)*

2. *Any loose or blistered areas must be feather edged and primed before repainting again.*
3. *Repaint, following the paint manufacturer's instructions, with any good quality latex-type exterior house paint.*

Do not use interior, automotive, or other hot solvent type paints
