# Pentalift Dock Communication System

The Pentalift dock communication system provides valuable information regarding the status of the loading / unloading process to the driver and to the loading dock personnel. It is simple to install and an easy to use solution for improving communication and safety at the loading dock area. The following components are included.

## Components installed inside adjacent to dock door

Selector Control & Lights

Warning Sign

Operation Instructions Placard

## Components installed outside adjacent to dock door

Traffic Light

Caution Signs

Consult a Pentalift Sales Representative for additional information or equipment recommendations  
Note: Some photos may reflect products with optional features. All Pentalift Equipment products are subject to design improvement through modification without notice.
