

ST200C

2" COMMERCIAL POLYURETHANE INSULATED STEEL DOOR

Overview:

- Polyurethane insulation is zero-ozone depleting and provides higher thermal properties which result in significant energy savings
- Cavity-free, uniform insulation ensures excellent adhesion to the sheet metal resulting in an exceptional strength to weight ratio that qualifies for a wide range of applications
- Sections are evenly filled using a continuous process with CFC/HCFC-free polyurethane insulation
- Insulated sections fabricated from pre-painted, hot dipped galvanized steel sheets with rigid polyurethane insulation core, face sheet wood grain embossed and rib reinforced
- Sections feature thermal break, steel-polyurethane-steel sandwich formed in a computer-controlled continuous process

Available in 9 Standard Colours

Product Specifications

Section Details

SECTION THICKNESS 2" (51mm)

THERMAL VALUE OF SECTIONS*
R 18.28

FACE SHEET PROFILE Multi-Ribbed / Ribbed

EXTERIOR FACE SHEET THICKNESS
0.016" (0.41mm)

MAXIMUM OPENING WIDTH 24'-2" (7366mm)

MAXIMUM OPENING HEIGHT 22' (6706mm)

FINISH Two coat, baked-on paint system on exterior side, primer and polyester finish coat.

Glazing Options

Warranty

10 years against delamination of the panels
1 year on materials and workmanship

*Thermal Values Calculated.
